Professional Summary

A highly skilled Senior Frontend Engineer with over 5 years of experience building dynamic, high-performance web applications. Proficient in NextJS, ReactJS, JavaScript, TypeScript, CSS, HTML, and Git-based workflows. Extensive experience in Fintech and product companies. Adept at working remotely and collaborating across distributed teams. Strong problem-solving abilities, with a deep understanding of software development life cycles, CI/CD processes, and Agile methodologies. Fluent in English, with exceptional communication skills and the ability to translate complex technical requirements into elegant user interfaces.

Core Competencies

- Frontend Technologies: ReactJS, JavaScript (ES6+), TypeScript, HTML5, CSS3 (Flexbox, Grid)
- UI/UX & Design Tools: Figma, Adobe XD, Design Systems, Responsive Web Design
- Version Control & CI/CD: Git, GitHub, GitLab, CircleCI, Jenkins
- Development Practices: Agile Methodologies, Scrum, Test-Driven Development (TDD)
- Performance Optimization: Code Splitting, Lazy Loading, Webpack, API Integration (Axios)
- Product Expertise: Fintech applications, E-commerce platforms, MVP development
- Soft Skills: Team collaboration, Technical Documentation, Problem-solving, Mentoring

Professional Experience

Senior Frontend Engineer - Pichi Finance (Remote) - May 2024 – Present
- Spearheaded frontend development for the MVP of Pichi Finance, a fintech platform, leading the design and implementation of responsive UIs using React, TypeScript, and CSS modules.
- Collaborated with cross-functional teams to integrate complex APIs and data visualizations, improving the overall UX by 30%.
- Implemented a reusable date range picker and sort/search component for order filtering, enhancing the platform's scalability and performance.

Frontend Developer - Upwork Freelance (Remote) - 2021 – 2024
- Delivered tailored web applications for multiple clients in various sectors, including fintech and e-commerce, using ReactJS, TypeScript, and CSS modules.

- Integrated design systems from Figma into scalable codebases, ensuring consistency across platforms and improving UI/UX.
- Created dashboards and dynamic components such as order tracking systems, date pickers, and customer data graphs, contributing to improved user satisfaction.

Frontend Engineer - Coalition Technologies (Remote) - 2020 – 2021
- Converted Adobe XD templates into fully responsive Next.js applications, using best practices in CSS architecture and performance optimization.
- Developed an interactive dashboard to display real-time patient data, including a visual graph for tracking blood pressure, which was central to the client's health app.
- Utilized Git, GitHub, and CI/CD pipelines to manage code deployment and testing, improving build efficiency and reducing development time by 15%.

Frontend Developer - Fintech Solutions (Remote) - 2019 – 2020
- Implemented and maintained the front-end architecture of a Fintech web application, collaborating with backend developers to integrate secure payment gateways and customer data management features.
- Led the design system implementation to standardize UI elements, improving maintainability and reducing design inconsistencies across the platform.

Education
Diploma in Nutrition and Dietetics - Rufus Giwa polytechnic owo, 2016.

Certifications
- Certified JavaScript Developer — w3 Schools, 2019.
- Advanced React & Redux Training — linkedin, 2022.

Technical Skills
- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
- Libraries & Frameworks: ReactJS, Next.js, Axios
- Tools: Figma, Adobe XD, Git, Webpack, Babel, Jenkins, CircleCI
- Methodologies: Agile, Scrum, TDD, CI/CD

Projects
- Pichi Finance: Developed a full-featured fintech app using React, TypeScript, and Figma designs, improving scalability and user engagement.
- Order Management System: Designed a modular frontend for managing orders (New, Completed, Canceled), including filtering and dynamic loading features.
- Patient Data Dashboard: Created a real-time data visualization dashboard using Next.js, delivering key health metrics via an interactive UI.

Languages
English (Fluent)
